Practice Areas

M&A - Capital Markets

From the starting advisory to the closing date, at 360 °.

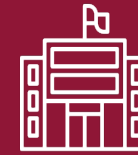

The M&A department offers assistance during all the steps of the transaction: legal, fiscal, accounting, labor, financial. During the interim period and post-operation with professionals from the Firm both on the Board of Directors and/or the Board of Statutory Auditors.

Advisory > Due Diligence: legal, fiscal, accounting, labour, financial > Structuring of the transaction > Negotiation and deal > Post closing activities > Board member

The M&A transaction can represent only one step in the development of the company: the Firm also assists listed companies and financial advisors in private equity and capital market transactions and deals with the creation of debt instruments and alternative finance.

Start-up > Financing: equity, debt, crowd > Ipo > Exit

Corporate Consulting

Tax | Start-Up | Financing&Accounting | Credit Recovery

The corporate department provides legal support to industrial Clients from the setting-up and supports them in their daily life by providing advice in relation to all aspects of corporate, tax, and commercial law. The Firm also assists Start-up from their first steps - seed, early, growth stage – up to their exit.

Business plan and economic-financial plan are also developed, as well as the Control Dashboard, in order to constantly monitor the performance of Clients with informative reports and monthly meetings at their headquarter.

The professionals support Clients during ordinary management and, with respect to tax obligations, also provide assistance with financial statements, direct and indirect taxes, tax disputes, and domestic and international taxation.

The Firm also offers out-of-court assistance, providing tax planning and ongoing consultancy for companies, individuals, and trusts.

The Firm offers advice and assistance before all the national jurisdictions, in all the specialized sections and in every grade (Court of First Instance, Corte di Appello, Cassazione) and promotes alternative forms of dispute resolution.

Artificial intelligence, innovation processes, and digital business modeling and transformation are the novelties that the Firm can offer to Clients interested in keeping up with the innovations that are gradually becoming more and more relevant in the industrial business.

Restructuring

Over the years Mainini & Associati has gained specific experience in restructuring or insolvency, supporting companies, creditors, financing banks and potential investors or buyers, as well as directors and shareholders in the management of the business crisis.

Clients will find consolidated experience in dealing with the most complex issues of bankruptcy law, including “liquidazione coatta amministrativa” and “amministrazione straordinaria delle grandi imprese in crisi”.

Our lawyers, accountants and labor consultants will be side by side to Clients, day by day.

The Firm assiduously collaborates and receives assignments from the Ministry of Economic Development and the Courts of Milan and Monza.
